

Michael Andrew

Backend Developer | Python | Django | REST APIs | Automation

Cosmópolis, São Paulo, Brazil | +55 19 99989-4514 | michael@michaelandrew.com.br | michaelandrew.com.br | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Backend Developer focused on Python, Django, and REST APIs, with hands-on experience building production systems, automations, and integrations. Contributed as a volunteer developer at Lacrei Saúde, working on API evolution, URL versioning, traceability, refactoring, and email template standardization. Builds custom solutions and independent products using PostgreSQL, Celery, Redis, RabbitMQ, and Docker, combining technical delivery with strong operational and business awareness.

TECHNICAL SKILLS

Backend	Python, Django, Django REST Framework
Data and async	PostgreSQL, Redis, Celery, RabbitMQ
Complementary frontend	Tailwind CSS, Alpine.js
APIs and integrations	REST, Google APIs, third-party APIs, automation
DevOps and quality	Docker, Docker Compose, GitHub Actions, Git, Linux, Ruff, Black, Pre-commit
Applied AI	LangChain, LangGraph, RAG, Gemini

PROFESSIONAL EXPERIENCE

Junior Backend Developer (Volunteer) - Lacrei Saúde | *Dec 2025 - Jul 2026*

- Developed and maintained REST APIs using Django REST Framework, PostgreSQL, Redis, Celery, and RabbitMQ.
- Implemented URL versioning and refactored code to improve maintainability, consistency, and API evolution.
- Added traceability mechanisms and standardized email templates, improving observability and communication consistency.
- Collaborated through Git-based workflows, pull requests, technical documentation, and feature validation.

Back Office Supervisor - Cosmonet Fibra | *Apr 2022 - Present*

- Supervise back-office operations, supporting the team with customer requests and work-order creation and closure.
- Track installation deadlines and operational pending items, prioritizing demands and maintaining visibility over delivery progress.
- Improve internal workflow organization and team engagement to support operational continuity and request completion.

SELECTED PROJECTS

OBOX - Gym Management System | *Production | used by a client for approximately 4-5 months*

- Custom system for student, plan, monthly fee, payment, attendance, expense, and monthly cash-control management.
- Automates monthly fee creation and deactivation of overdue students according to configurable business rules.
- Integrates with an external API to issue invoices directly from the system.
- Stack: Django, Django REST Framework, PostgreSQL, Redis, Celery, RabbitMQ, Tailwind CSS, and Alpine.js.

SGA - Scheduling Management System | *Production | gestaodeagendamento.com*

- Web platform designed to replace paper-based appointment scheduling with an online workflow accessible from anywhere.
- Supports creating, rescheduling, deleting, starting, and completing appointments, with execution and attendance metrics.
- Centralizes schedule visibility and availability rules, reducing interruptions during customer service.
- Stack: Django, Django REST Framework, PostgreSQL, Redis, Celery, RabbitMQ, and Tailwind CSS.

Utility Work Automation | *Production | manually triggered*

- Automates the identification of confirmed utility works, removing the need to manually review scheduling and cancellation emails.
- Collects data through APIs and sends a structured WhatsApp message with location, date, start time, and end time.
- Attaches the work PDF when available through Google service integrations.
- Stack: Python, Google APIs, and a utility-company API.

CERTIFICATIONS

- Django Master - Web Applications with Python and Django, PycodeBR, 45h (2025)
- Django Master - Modern APIs with Python and Django, PycodeBR, 18h (2025)
- Django Master - Modern Systems Architecture and Modeling, PycodeBR, 21h (2025)
- AI Master - Artificial Intelligence Applications with Python, PycodeBR, 12h (2025)
- Integration Master - Systems and API Integrations with Python, PycodeBR, 12h (2025)
- Open English - Level 1 (2026)
- Lacrei Saúde - 588 cumulative certified volunteer hours (2025-2026)

LANGUAGES

Portuguese: Native | **English:** Basic / elementary, actively improving through regular study and technical reading.
